

I am writing to question the assembly on critical race theory. What benefit is there pitting one race against another have to justice? This makes no sense. Teachers need to teach the basics with proven facts and not step into theory that says because you are one race you have a privilege over another. Have you lived in Anchorage your whole life like I have? I have friends of all races and creeds, rich and poor, and that is because I lived here in one of the most diverse cities in America. We all know racism exists and it is not just one race that is racist. It is not prevalent though and it should be the family's responsibility to teach about people's differences not yours. Thank you.
